**AMELIA AMON**  
**Solar Design and Energy**

Amelia Amon is a solar designer with an aesthetic approach to integrating sustainable energy and resiliency into our built environment. Her design studio, Alt. Technica, specializes in solar products and installations, including off-grid, remote sensing, architectural, and emergency elements such as smart city communication, solar trackers, awnings, dark-sky compliant solar LED lights, street furniture, battery chargers, energy system components, and solar refrigeration. Educational solar interpretive exhibits are featured in numerous science museums and environmental centers. Policy work includes work with renewable energy advocacy organizations. Amelia has a BS in Industrial Design from the University of Bridgeport, Conn.
